Q232. Below are two different viewpoints. Please indicate which one you agree with more.*

Smith believes we must balance public health concerns with economic concerns. A complete collapse of our economy and financial systems creates its own public health concerns.

Jones believes we must put all of our energy and resources into protecting public health. If there are consequences of that focus, we will deal with them after we have contained the coronavirus.

Q551. Which of the following opinions is closest to your own?*

Davis believes letting the people on extreme ends of issues dominate the discussion is the only way to accomplish real change and extremism is needed to counter some of the dangerous ideas and policies that are being suggested.

Baker believes we should stop letting the people on the extreme ends of the issues dominate the discussion and put more faith and emphasis on moderate voices on each side of the debate to find common ground.
